Manda Allemang

- TBI Survivor will be sharing her inspirational testimony!

Kevin McDonald and Melissa Carmen are at the forefront of an inspirational Brain Injury Awareness Rally. We live it, understand it and are respected in the Brain Injury Community.

We have an eventful day planned! We ask you to attend and let your voices be heard to some of the most important people who can make a difference in today's society, our Legislators! You will hear inspiring testimonies from brain injury survivors, a father who NEVER gave up hope for his son, and professionals.

Candace Gantt, a traumatic brain injury survivor, who is loved and respected in the Brain Injury Community, will be tracking all individuals on the Legislators you will be meeting with. Contact Candace: candace.gantt@verizon.net
