Title 6 Aging, Chapter 11: Adult Day Services

PURPOSE:

To inform Medication Administration trainers that they can request training aids, including a document with links to the medication administration webcasts, transcripts for each lesson, a copy of quizzes and a quiz answer key. Similar training aids also are available for the Practicum Observer course.

DISCUSSION:

This method of access can be used by Medication Administration Course Trainers instead of using Matrainer Dashboard Course set up and online Mastudent Course Administration.

1. There have been numerous requests to allow more flexibility in providing the Medication Administration Training Course to unlicensed staff learning to pass medications. Trainers will now be able to request a document, which contains links to the medication administration webcasts and transcripts for each lesson. here is a similar set of documents available for the Practicum Observer course. Additionally, trainers will receive a copy of quizzes and a quiz answer key. **This permission is temporary. Once there is a new online version of the Medication Administration Training Course available, this permission will be rescinded.**
2. To request copies of the course material and quizzes, you must email maexam@temple.edu. You will be sent a link to a brief application. When you complete the application, your information will be reviewed and you will receive the materials you have requested. *Please note that this is a manual rather than automated process.
3. You may request Course Material and Quizzes or you may request the Course Material and Quizzes in addition to the Paper Test from the maexam@temple.edu email address.
4. As a part of this process, trainers are required to review course material with students rather than to allow them to take the course independently.
 - a. Please do not distribute the webcast links to the students separately
 - b. You may make copies of the transcripts available but please do not distribute the webcast links to students.
 - c. Please be sure to keep the quiz answers separate from the quiz documents.
 - d. Please do not distribute quiz answers or exam answers to students.
5. Please maintain student test scores and the students' initial summary sheets accordingly in order to prepare for later inspections.
6. There will be an announcement posted when the new online version is available and when the links expire.
