

Proposed Changes to Community Participation Supports (CPS)

- Statewide, CPS is seeing good utilization, but complexity of existing procedure codes creates additional administrative burden on providers, SCOs and AEs
- Proposed simplification improves reporting and alleviates administrative burden while reducing opportunities for error.
- Addition of CPS On-call and Remote Support (pending CMS approval)
- Proposed reduction the number of procedure code from 54 to 14
- CPS in conjunction with residential

CPS Community On-Call and Remote Support

(Pending CMS Approval)

For participants age 18 and older, fading of the service and less dependence on paid support for ongoing participation in community activities and relationships is an expectation of the Office. Fading strategies, similar to those used in Supported Employment should be utilized whenever appropriate to promote independence.

General Overview:

- On-call and remote support is covered for participants for whom the provider has coordinated community activities in which the participant is supported through unpaid supports and/or as a component of the fading strategy where this type of support is needed as a back-up. The provider may bill for on-call and remote support when all of the following conditions are met:
- The activity was coordinated by the provider of Community Participation Support services,
- The participant does not receive Residential Habilitation services,
- The participant requires on-call or remote support for health and safety reasons, and
- Remote support is available immediately to the participant and on-call staff can be available for direct service within a maximum of 30 minutes (less if agreed upon by the individual plan team).
- A participant may be authorized for a maximum of 40 units of on-call and remote support per week.
