

Revised Goals and Objectives Cheat Sheet for AAW and ACAP ODP Announcement 19-062

AUDIENCE:

All Adult Autism Waiver (AAW) and Adult Community Autism Program (ACAP) providers, including Supports Coordinators (SC), who are responsible for developing or reviewing goals and objectives

PURPOSE:

To inform all AAW and ACAP providers, including SCs, of an updated Goal and Objective Cheat sheet and training available on MyODP

DISCUSSION:

Goals and Objectives are an important part of a participant's ISP. A well-written goal and objective makes it easier to develop Goal Attainment Scaling (GAS) Charts and to report on progress. In an effort to update content and ensure BAS expectations are clear to all we have revised our original Goal and Objective Cheat sheet and recorded a training, both of which are posted to MyODP at

<https://www.myodp.org/course/view.php?id=1353>

HOW CAN YOU USE THIS RESOURCE?

Do you write or review goals and objectives? Use page one and two as a guide to writing good goals and objectives. Each component is broken down by definition, examples, and non-examples.

Are you responsible for entering goals and objectives into HCSIS? It is recommended providers familiarize themselves with content and ensure all information is included before entry into HCSIS. Use page four as a guide.

For AAW only: the bottom half of page three includes a breakdown of those AAW services requiring goals and/or objectives, as well as guidance for when they should be updated.

For questions, please contact the Provider Support Mailbox at ra-basprovidersupprt@pa.gov with “Goals and Objectives” in the subject line.
