Making Employment Work: ACRE Basic Certification Training

July 12 - July 15, 2020
9am – 11am and 1pm – 3pm each day

[The Arc of Pennsylvania's Making Employment Work course](#) is an ACRE Basic Certification Training. To receive certification, participants must attend a 3-day, live webinar training and then complete a self-paced, online curriculum. Completing this certification course will qualify individuals to provide Supported Employment services with Pennsylvania's Office of Vocational Rehabilitation and Office of Developmental Programs. Our training combines lessons learned from traditional Supported Employment and Customized Employment techniques.

Course topics include:

- *History and values of supported employment services*
- *Individualized assessments and employment/career planning with an overview of Discovery*
- *Community research and job development with an overview of Customized Employment*
- *Developing workplace and related supports with an overview of Systematic Instruction*
