OCDEL Releases Guidance for EI Services Opening PDE Issues Early Guidance for School Reopening's

Dear Early Intervention Leader,

Please find the attached guidance from the Office of Child Development and Early Learning's Bureau of Early Intervention Services and Family Supports. The guidance serves as a framework that can be used in your organizations planning to provide Early Intervention safely for children, families, and your staff. As part of your planning process the Bureau encourages you to collaborate with service contractors, Early Intervention programs within your service area as well as neighboring Early Intervention programs to assure expectations for services are being provided consistently.

Once your organization has completed your planning process it is critical that all staff, service coordinators and service contractors understand the plan so that it can be consistently communicated with families. If you have questions about the guidance please contact your Early Intervention Advisor. As frequently asked questions are submitted to OCDEL, additional operational guidance will be distributed to Early Intervention Leaders. See the OCDEL Guidance [here](#).

The Pennsylvania Department Of Education issued Preliminary Guidance - Phased Reopening of Schools today that can be found [here](#).

If you have questions, please contact RCPA Policy Directors [Jim Sharp](#) or [Cindi Hobbes](#).
