

## **RCPA Diversity, Equity, & Inclusion Committee Seeks New Members**

Last month, RCPA launched the Diversity, Equity, & Inclusion Committee. This multi-division group was formed to address the systematic impact of racism and other inequities within the health and human service sectors, as well as facilitate opportunity growth for under-represented groups.

This committee welcomes participation from any RCPA member interested in working to address these crucial issues and actively seeks members from under-represented demographics, particularly individuals from BIPOC (Black, Indigenous, People of Color) communities. We recognize that our best work will result when all voices are at the table.

The committee plans to meet monthly; dates and times are to be determined. If you or a member of your team are interested in participating, please contact RCPA Policy Directors [Jim Sharp](#) or [Cindi Hobbes](#) for more information.
