PA Screening, Brief Intervention, and Referral to Treatment (SBIRT) Champion Training Survey

The Pennsylvania Department of Drug and Alcohol Programs and the University of Pittsburgh's Program Evaluation and Research Unit in the School of Pharmacy will be leading a training series on the practice of SBIRT (Screening, Brief Intervention, and Referral to Treatment) in Spring/Summer 2021. This opportunity will provide health care professionals and students an opportunity to learn about this evidence-based practice.

To help us deliver this training with your needs in mind, please take this [Survey: Champion Training Opportunities](#). Your input is extremely valuable to the success of this initiative.

Students for this course are those interested in:

- Supporting early intervention and treatment services for persons with substance use disorder and those at risk for developing these disorders.
- Identifying patient risk level for substance use disorders through evidence-based screening tools.
- A 5-minute discussion that can increase a patient's understanding of risk that leads to a desired behavior change.
- How integrated care coordination can support a patient's road to recovery.
