

Department of Health Launches New Acquired Brain Injury Program Webpage

The Pennsylvania Department of Health (DOH) has launched the new Acquired Brain Injury Program (ABIP) [webpage](#) on their website. The page provides information on this program, which is available for individuals 18 to 21 years of age who are eligible. In addition to providing the eligibility requirements for this program, the site also provides information about the services that are provided, as well as great resources, such as the [ABIP Rack Card](#).
