EXCLUSIVE ANCOR MEMBER BRIEFING Two New Data Resources to Fuel COVID-19 Advocacy Efforts

This morning, we announced the release of our latest COVID-19 publication, *Racing Against the Clock: Preserving Disability Supports During the COVID-19 Pandemic*.

This new resource assesses the impact of the coronavirus on providers and profiles eight community-based disability service organizations that are showing remarkable resilience despite a mountain of challenges.

In addition to releasing the new publication, yesterday, we supported two of ANCOR's state association members (PAR in Pennsylvania and the New York Alliance for Inclusion & Innovation) in releasing a new study on case and mortality rates among people with intellectual and developmental disabilities in eight states.

To walk you through these two new resources to fuel your COVID-19 advocacy efforts, we're hosting a members-only briefing on Friday. **There are limited seats available, so please register to join us for this exclusive ANCOR Member Briefing on Friday, October 30, at noon EDT.**
