Office of Developmental Programs (ODP) Visual Gestural Communication (VGC) – New Time

Do you support an individual who uses VGC? This mode of communication can be described as a natural response to wanting to communicate, including all forms of gestures.

Join the ODP Special Populations Unit for a discussion about VGC! We'll begin with a short overview from the newly released VGC module. Then we'll answer your questions related to VGC challenges, taking VGC to the next level, and any other pertinent issues.

If you have already registered for this session, you will automatically be re-registered for the new time and don't need to do anything.

[Register](#) for this session

December 9, 2020

12:00 pm – 1:00 pm (new time)

Virtual Office Hours (VOH) are GoToWebinars that allow interactive dialogue.

Pre-registration for each session is required. Please use the link above to register for the session. Once registered, you will receive an email with instructions describing how to participate, including a new link to join the meeting. You can join the audio portion of the webinar by telephone or computer.

If you have questions, please [email](#).
