## ODP Updated Electronic Visit Verification (EVV) Guidance

The Office of Developmental Programs (ODP) has updated its guidance pertaining to electronic visit verification (EVV). The updated guidance document is version 2.0 of the [Electronic Visit Verification \(EVV\) Technical Guidance for Personal Care Services](#). The resource provides ODP-specific EVV technical information for stakeholders.

This updated guidance document is technical in nature and provides granular information for EVV billing/claims, EVV errors and EVV calculation logic. The Department of Human Services's (DHS) EVV [webpage](#) contains the majority of other information that is **not** contained in this document, including public meeting notices, contact information, and frequently asked questions (FAQs) that address general, provider, technology, and training questions.
