

LGBTQIA+ Pride Month occurs in the United States to commemorate the Stonewall riots, which occurred at the end of June 1969. As a result, many pride events are held during this month to recognize the impact LGBTQIA+ people have had in the world. While it's more widely accepted today than ever before, history is able to tell long stories of why this was not the case for a very long time. Pride Month is a time for each individual to be proud of who they are and the unique offerings they have to bring to the world.
