Dear Colleagues,

I am a member of the Pennsylvania Rehabilitation Council (PaRC), a Federally mandated Governor appointed advisory Council to the Office of Vocational Rehabilitation (OVR) tasked with providing a voice for all Pennsylvanians with disabilities, especially as it pertains to the diverse issues affecting employment.

As a Council we aspire to grow our network of vital advocates that share our mission. We would like to share our bi-monthly PaRC Newsletter and ask that you please show your support by signing up.

Please send an email to parc@parehabilitationcouncil.org with contact information of all those interested in receiving the newsletter or fill out the contact form provided on the new PaRC website at the following link:

<https://parehabilitationcouncil.org/contact/>

The PaRC Newsletter is an informative bulletin shared through email and is intended to broaden the conversation about the diverse issues affecting employment of people with disabilities as well as to ask for input from stakeholders like you. Additionally, please forward this invitation to anyone you feel may be interested in receiving our newsletter.

We appreciate your time, partnership, and continued commitment towards improving and expanding employment opportunities for Pennsylvanians with disabilities.

Thank you so very much,

Michele Leahy, PaRC Social Media / Outreach Committee Chair
