9/23/2022	1:00 PM - 2:30 PM	<u>VOH Medically Complex Conditions - Part 6: Infection Prevention and Control Assistance</u>	ODP is offering a training series for Intellectual Disability/Autism (ID/A) Supports Coordination Organizations and Administrative Entities (AEs) on supporting individuals with medically complex conditions. The training series will cover a variety of topics aimed at increasing capacity for supports professionals when providing care for individuals with medically complex conditions. The series will offer guidance from medical professionals including ODP's Medical Director Gregory Cherpes and Chief Nursing Officer Rhonda Gengler. Note: This series replaces the previously announced 'Children with Medical Complexities' training series.	Supports Coordinators (SCs) and Administrative Entities (AEs)
9/27/2022	1:00 PM - 2:30 PM	<u>Central Region - Public Health Townhall: Updates on COVID-19, Influenza, and More</u>	This session is for stakeholders in the Central Region. Presentation topics from Dr. Rabea Khadimi and Dr. Antonie Auguste will touch on COVID-19 and Influenza, preparing for fall, ventilation options, and best practices with indoor requirements and weather changes.	Central Region Stakeholders
9/27/2022	1:00 PM – 2:00 PM	<u>Positive Communication and Aging: Supporting People in Place</u>	This training will review how communication changes as people age. We will highlight the differences between aging with an existing disability and acquiring additional disabilities through the aging process. The changes that occur in all life domains will be discussed as well as how that can impact the person's concept of connecting with the world including the roles they play. Additionally, attendees will gain practical tips and tools on how to support the changing needs of people as they age and how to enable continued positive communication.	All Professional Stakeholders
9/29/2022	10:00 AM – 11:15 AM	<u>Using Data to Support People with Dual Diagnoses</u>	Supporting people with Dual Diagnoses (DD) can be challenging, especially when mental health symptoms are setting events for interfering behaviors. This training will follow up on "Using Data to Support People with Dual Diagnoses - Part 1" (https://www.myodp.org/course/view.php?id=1936) using case examples to demonstrate the application of the principles and tools discussed in Part 1.	Behavior Specialists
