**Streamline and CenClear Partner to Build Out An
Integrated Care and Wellness Clinics (ICWC) Formal Reporting Package**

Oak Brook, IL – CenClear of Bigler, PA, has completed a contract with Streamline Healthcare Solutions (Streamline) to move to the SmartCare™ electronic health record (EHR) platform. After many years on their incumbent EHR, they sought a system that offered better hosting uptime, along with greater flexibility than their current multi-tenant system could provide. More robust reporting was also a non-negotiable functionality to better support their varying CCBHC requirements at both the state and federal levels.

Mark Wendel, CEO of CenClear, stated, “CenClear evaluated several EHRs and made the decision to partner with Streamline because of their systems capabilities, telehealth integration, as well as the ability to be adaptable to CenClear's future needs”.

“CenClear is an innovative behavioral health and preschool provider taking on both a CCBHC grant via SAMSHA and represents two of the seven ICWCs within Pennsylvania’s CCBHC framework,” said Javed Husain, CEO at Streamline Healthcare Solutions. “We look forward to providing greater efficiency via our CCBHC and NOMS module while also partnering to build a formal ICWC reporting package to help ease the manual reporting burden.”
