This document provides guidance on the process for adding remote supports services and updating their rates on an ISP in HCSIS. Both “Remote Support – Technology/Equipment” (W6087) and “Remote Support – Service” (W6088) are set up as outcome-based services with individualized rates. This means HCSIS allows these two services to have a different rate per service per individual and per provider. To enable the SC to add each Remote Support service to a plan, a dollar (\$1.00) placeholder rate is present on the Provider’s service offering. The dollar placeholder rate will also appear as the Service Unit Cost on the *Service Details* and *Individualized Rates* screens. The user with the ISP Financial Support (IspFinlSup) or CntrctAdmin role (typically the AE) should update the dollar placeholder rate with the appropriate rate while the plan is in Draft status.

SCO/SC ACTION: Step-by-step instructions to add remote support services to the ISP in HCSIS

1. The SC shall use the information provided to them by the provider to add the applicable services to the plan.
2. Navigate to the Create Draft screen: Plan > Plan Admin > Create Draft
3. To locate the remote support services to add to the plan, the SC will:
 - a. Navigate to Plan > Services and Supports > SSD
 - b. Search for Individual
 - c. Select Provider Services from the Go To drop-down list and click [Go]
 - d. Enter Provider Name, select County of Service and click [Search] as seen below.

4. Click the Remote Support Services box on the provider screen and Click [Add to Selected].
