Additionally, a supplemental document containing the detailed strategies developed by ISAC to support achievement of the recommendations has been published with the report.

- ❖ Access the ISAC Recommendations and Strategies document from inside the ISAC Annual Report or by clicking [here](#).

Both documents can also be found by visiting [MyODP](#) and following this path: Everyday Lives > Everyday Lives Publications > Recommendations, Strategies, and Performance Measures.

ISAC members, working in the role of ODP's stakeholder quality council and in partnership with ODP, use this report to gauge system progress towards achieving the goals of the original recommendations of *Everyday Lives: Values in Action*. This annual report is intended to serve as a guidebook for everyone engaged in developing, providing, and advocating for services for individuals with an intellectual disability and/or autism, their families, service providers, and the advocates who support people to have an everyday life. In addition, it guides ODP to develop policy and design programs that honor the vision of *Everyday Lives: Values in Action*.

It is important to note that many of the recommendations and strategies detailed in the 2022 report are already incorporated into current ODP regulations and policies, the ongoing work of the Supporting Families Collaborative, statewide employment initiatives, and new and developing training for the field.
