#### AUDIENCE:

#### PURPOSE:

To remind Medication Administration trainers that the 2004 paper course and the 2004 and 2013 manuals will be discontinued and no longer valid for use in training students after December 31, 2023.

To advertise the Train-the-Trainer Fall 2023 Virtual Face-to-face schedule.

#### DISCUSSION:

**REMINDER! An updated Medication Administration Training Course curriculum was released in September 2022 which updated the online lessons and online examinations. In November 2022, it was announced that the use of older versions of the training course would no longer be permitted after December 31, 2023. We recommend to attempt the online course before this date as to offer the chance to reach out with any questions before the deadline.**

Please be advised that use of the 2004 paper course, and the 2004 and 2013 manuals will not be permitted for new student candidates after December 31, 2023. All previous medication administration training course materials will be archived and will no longer be available. All current, valid course materials are available online. Providers who currently only provide the paper course must plan to operationalize the online course prior to December 31, 2023.

**After December 31, 2023, unlicensed staff can only become qualified to administer medications by using the online Medication Administration Training Course.**
