ONLINE EDUCATION

What Past Attendees Say

This was the best workshop I've been to in a very long time! The information provided is invaluable.

I thought I knew a lot about dementia, I was wrong. I'm a nurse and attended a lot of dementia workshops in the past but this was absolutely the best. Great job, very informational, professional class.

I was very satisfied with this workshop. It was very informative and presenters were awesome!

This really shed new light on how to understand IDD - of ways to respond, the screening tool, and what happens to the brain. I will definitely be taking this information back to my organization for our IDD program. Both presenters are just phenomenal!

*TRAIN-THE-TRAINER WORKSHOP DETAILS

The optional 5th session is for those wishing to become NTG Affiliated Regional Trainers. The NTG has a network of over 800 Affiliated Regional Trainers across the United States. NTG Affiliated Regional Trainers are authorized to use the NTG's branded and copyrighted national model training curriculum modules to conduct trainings within or without their organization. Trainers have access to a large library of advanced topic modules, archived advanced topic webinars, ongoing free continuing education offerings, trainer manual, private Facebook page, and become part of our national network of experts in the field of ID and dementia. There are no ongoing licensing fees beyond the workshop registration fee. To become a trainer you must attend all 4 sessions of the Foundation workshop, attend the 5th Train-the-Trainer session, sign the Trainer Agreement, and pass an online knowledge test.

The webinar will be presented using the Zoom webinar platform

kathrynpears@the-ntg.org
