Notes:

1. Upper bound AWC wages shown in this exhibit have been adjusted to match the point in the range where ODP selected rates for each corresponding service. This adjustment ensures that all upper bound wages shown are below ODP selected rates.
2. Enhanced services with 2:1 staffing ratio assume one enhanced direct care worker and one non-enhanced direct care worker. Please see the corresponding non-enhanced service for the applicable non-enhanced direct care wage range.
3. All wages shown above do not include consideration for the overtime adjustment included as a part of rate development.
4. A benefit allowance of \$2.67 was added for agency with choice wage ranges, which is an increase from the \$2.41 used in SFY 2021–2022 rate development with the exception of supports broker services which were set equal to the previous upper bound wages.
