

Are you an adult who works in a health care setting?

If you are 18 or older and have direct contact with patients in a health care setting, we would like to hear from you on a research survey.

ABOUT THIS SURVEY

The goal of this study is to gather insights on how health care settings can better support individuals with autism. Your feedback will help to develop an “autism friendly” certification program for health care settings.

WHO CAN VOLUNTEER?

- Individuals at least 18 years old
- English as a primary language
- Work in a licensed health care setting (e.g. dentist offices, primary care physician offices, advanced care centers, pediatricians, etc.)
- Have direct contact with patients

WHAT WILL VOLUNTEERS DO?

- Complete a brief online survey

TO COMPLETE THE SURVEY:

Scan the QR code or complete the survey online at: <https://redcap.link/z5rrxj19>
